

▶ Dental Claims Processing

Poor quality and accuracy of dental claims processing leads to pends, appeals, and refiles, which all delay your claims processing. By outsourcing your claims processing, Data Dimensions increases patient and provider satisfaction, while increasing your quality, accuracy, turnaround time, and profitability.

Our goal of providing excellent customer service through experienced staff has remained a priority for over 25 years. We understand that clients have differing business rules and unique needs; therefore, we allow for flexibility. We have the capability to customize the workflow to meet your needs.

*Figure 1: Dental Claims Processing Sample Workflow. While this illustrates a typical workflow of dental claims processing, we customize each solution, allowing for flexibility and options. Using Six Sigma® methodologies, we guarantee accuracy, quality, and turnaround. **ddTracker**, Data Dimensions' proprietary tracking system, takes the lead in delivering real impact by giving you real-time status of each piece of mail received.*

Outsourcing your dental claims processing provides you with:

- ▶ Expedited claims processing, allowing for greater profitability
- ▶ Secure online access to records, giving you sharp images / x-rays & claims
- ▶ HIPAA compliance & protection
- ▶ An audit trail for your review at any time, ensuring transparency
- ▶ Strong customer service from experienced staff
- ▶ Flexibility to customize our system to fit your needs
- ▶ Modern technology with no need to purchase any software

Consider what our clients say... "We are very happy to have chosen to use you all for our project to convert dental X-rays into digital files. We were skeptic of the ultimate results as most of our adjudicators were used to 'feeling the paper,' but the quality of the images and quick turnaround have made them converts," and "The detailed transition plan was well executed and ensured a risk free changeover... We believe this year we will save 2 million from this project."

~ Major, Leading U.S. Dental Payor
