

▶ Medical Records Digitization

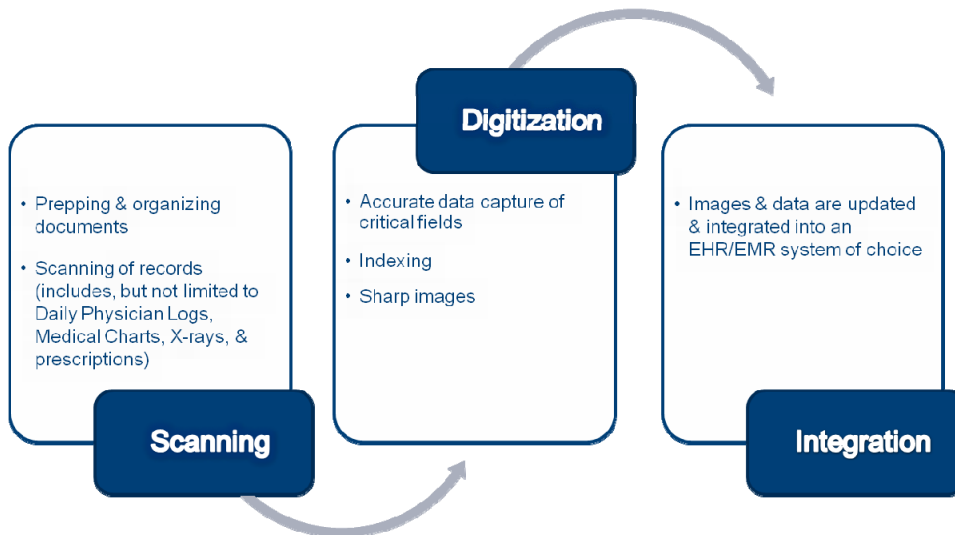

Data Dimensions offers nationwide HIPAA-compliant medical records processing services. Our services include the scanning, digitization, and integration of your physical medical records into an EHR/EMR system of your choice. Our services allow your healthcare organization to make the most of your patient data and your EHR/EMR system.

Data Dimensions' state-of-the-art scanning equipment and software allow a high volume of documents to be scanned in a minimal amount of time, thus creating sharp images while capturing critical data fields and indexing at a very high accuracy level.

Data Dimensions has the capability to digitize complete patient files. Documents may include, but not limited to: Daily Physician Logs, Medical Charts, X-rays, and Prescriptions. Document sizes can range from as small as a receipt to multiple duplex printed pages.

In an economy where return on investments is critical, partnering with an experienced company with a proven track record, such as Data Dimensions, allows your organization to experience cost savings in a short period of time.

Finally, our HIPAA-compliant services assure that your facility stays up to date with current state and federal government regulations.

Our goal of providing excellent customer service through experienced staff has remained a priority for over 25 years. We understand that clients have differing business rules and unique needs; therefore, we allow for flexibility. We have the capability to customize our solutions to meet your needs.

Outsourcing the digitization of your physical medical records provides you with:

- ▶ HIPAA compliance & protection
- ▶ Accurate data capture of critical fields & indexing
- ▶ Timely integration of data into your EHR/EMR system of choice
- ▶ Clear & precise images of patient records
- ▶ Real time, web-based process tracking
- ▶ Complete audit trail ensuring transparency

Improve patient care:

- ▶ Less delays, increase accuracy, & better communication of patient data within hospital departments, other hospitals within network, & others

Lower overhead:

- ▶ Reduce administration & labor costs
- ▶ Reduce wasted space within your facility &/or monthly storage rentals/leases
